

METATARSAL PAD MALE

ABOUT THE PRODUCT

The Metatarsal Pad (Male) is designed to provide targeted cushioning and support to the forefoot area. It helps relieve pain caused by metatarsalgia, calluses, capsulitis, and neuromas by evenly redistributing pressure across the ball of the foot. Ideal for daily use, it supports proper weight transfer during walking, reduces strain on the forefoot, and improves overall comfort.

BENEFITS

- Provides comfort to forefoot pain caused by calluses, metatarsalgia, capsulitis & neuromas.
- Supports metatarsal - fore foot area while body weight is transferred from heel-via-arch to fore foot (gait cycle).
- Useful in management of post fore foot surgery; metastarsalgia and; progressive pain towards ankle.

HOW TO USE

- Place the pad under the ball of your foot, just behind the toes.
- Adjust until it feels comfortable and supports the forefoot.
- Use inside shoes or slippers for daily cushioning and relief.

Instructions : If the product gets dirty or sticky, clean with talcum powder, rinse with mild shampoo and water, shade dry, and avoid direct heat.

Safety : Keep away from heat and sharp objects.
