

TOE SEPRADOR WITH LOOP, METASARAL PAD & BUNION SHIELD

ABOUT THE PRODUCT

A gel toe spreader with a loop, metatarsal pad, and bunion shield is a comprehensive foot care device designed to address a combination of common foot problems. The loop secures the device to the big toe to prevent shifting, while the spreader portion gently separates the first and second toes to reduce friction and promote proper alignment. The attached metatarsal pad cushions the ball of the foot, providing relief from pain and pressure in that area, and the bunion shield provides a protective barrier to cushion and shield the bunion from rubbing and irritation.

BENEFITS

- Fits width of the forefoot and gel layer protects bunion and big toe.
- Straighten and align toes by gentle constant pressure while spreading toes and reduce friction between toes preventing infections & relieve pain of overlapping toes/toe drift.
- Function as cushion to absorbs excess pressure over the metatarsal area and provides an area of very soft padding for the balls of the feet.

HOW TO USE

- Slide the loop over your big toe, position the separator between the toes, and place the metatarsal pad under the forefoot with the bunion shield resting against the bunion.

Instructions : If the product gets dirty or sticky, clean with talcum powder, rinse with mild shampoo and water, shade dry, and avoid direct heat.

Safety : Keep away from heat and sharp objects.
