

CERVICAL SUPPORT WITH MEMORY FOAM

ABOUT THE PRODUCT

A cervical support with a two-sided contour and memory foam is a premium orthopedic pillow designed for optimal neck and head support. Made from high-density memory foam, it conforms to the unique shape of a user's neck and head, providing customized and consistent support. The two-sided contour offers versatility, with one side having a higher ridge and the other a lower ridge, allowing users to choose the level of support that best fits their body type and sleeping position. This design promotes proper spinal alignment, which can help to relieve neck pain, reduce snoring, and enhance overall sleep quality. The memory foam material also helps to evenly distribute pressure, preventing the pillow from "bottoming out" and losing its supportive qualities during the night.

BENEFITS

- Eliminate head and neck pain with the soft memory foam pillow.
- Contour shaped Memory foam pillows for cervical, neck & back pain relief for Back and side sleepers.
- Unique cooling progel pads keep head cool through the night.

HOW TO USE

- Place the cervical support on the bed or pillow area with the contoured side facing up.
- Lie down so your neck rests comfortably in the curved contour.
- Adjust your position until your head and neck feel fully supported.

Instructions : If the product gets dirty or sticky, clean with talcum powder, rinse with mild shampoo and water, shade dry, and avoid direct heat.

Safety : Keep away from heat and sharp objects.
