

# GEL DIABETEIC SOCK

## ABOUT THE PRODUCT

A Gel Arthritic/Diabetic Sock (Cotton) is a specialized foot garment designed for individuals with sensitive feet, such as those with arthritis or diabetes. It combines the softness and breathability of cotton for overall foot comfort with strategic placement of a medical-grade gel lining. This gel is typically positioned around the sole, heel, or ankle to provide gentle cushioning, absorb shock, and minimize friction and pressure. The sock aims to protect the foot from injury, help maintain skin hydration, and improve circulation, all while offering a non-binding fit essential for managing diabetic foot health.

## BENEFITS

- Single layer sock with (3mm) of gel throughout the sole Helps prevent foot ulcerations. Can be used with or without diabetic shoes. Provides optimum protection for the neuropathic foot. Helps reduce friction, abrasion and shear forces while preventing callus formation. Serves as a soft tissue supplement for fat pad atrophy.

## HOW TO USE

- Slide the sock gently onto your foot, ensuring the gel padding sits correctly under the sole and around the sensitive areas.
- Make sure there are no folds or wrinkles; check that the gel areas align with pressure points for maximum relief.

**Instructions :** If the product gets dirty or sticky, clean with talcum powder, rinse with mild shampoo and water, shade dry, and avoid direct heat.

**Safety :** Keep away from heat and sharp objects.
